

designated by reference number. Corresponding reference numbers have been included within FIGURES 3B and 6 for clarity.

No new matter has been added.

[0019] Referring to FIGURE 2, movable display support system 14 is shown. Support system 14 includes a base 36 mounted to a track system 38 for translating movement (e.g. linear or curved or other) along a path of travel. Track system 38 is installed upon a mounting structure shown as a panel 40 (shown in FIGURE 3). A passage in panel 40 shown as groove 41 can be used for routing various cables to base 36. Support system 14 also includes a display support assembly 42 movably coupled to the base 36. Support assembly 42 includes flanges 44 configured for attachment of a fixture or structure shown as an articulable arm 46 used to support an information display device shown as a display panel 34 (or any other structure such as a base or fixture of any conventional type providing one or more points or "joints" (designated by reference numerals 43a, 43b, 43c and 43d) for movement of a mounted display device). According to an exemplary embodiment, support assembly 42 is pivotably coupled to base 36 and each articulable arm 46 is movably coupled to flange 44 to allow suitably positioning and/or orientation of display panel 34 in any of a variety of directions (e.g., up, down, laterally, pivotably) at each point or joint allowing articulation (e.g. translation, extension, retraction, rotation, etc.). As shown in FIGURES 3A and 3B, the selective movement of base 36 with respect to the mounting structure shown as panel 40 (e.g. along track system 38) and/or of support assembly 42 with respect to base 36 provides for the positioning and orientation of one or more of display panels 34 within a substantial range of motion in work space 10; selective movement of display panel 34 with respect to support assembly 42 provides for additional range of motion within work space 10.

In the Drawings

Please amend FIGURES 3B and 6 to include reference numbers 43a, 43b, 43c, 43d and 52 as shown for clarity with the amendments identified in red. Applicants have included formal drawings for all FIGURES that include the amendments to FIGURES 3B and 6.
